**LAMBUNG MANGKURAT UNIVERSITY – BANJARMASIN**

The **Social Science Education Writing Laboratory** is an academic support unit under the Social Science Education Study Program, Faculty of Teacher Training and Education, Lambung Mangkurat University, Banjarmasin. This laboratory was established as part of the program's commitment to fostering a strong academic writing culture, enhancing students' research competencies, and supporting the production of high-quality scholarly works in the field of social sciences and education.

The Writing Laboratory serves as a dedicated space for students and lecturers to develop academic manuscripts, research proposals, theses, scientific articles, and other scholarly outputs. It provides various facilities, including consultation services, writing workshops, editorial assistance, and access to academic resources. Through its activities, the laboratory encourages critical thinking, academic integrity, and scientific communication skills among students and faculty members.

In addition to supporting the academic writing process, the laboratory also functions as a hub for academic collaboration and publication. It plays an essential role in strengthening the program's research ecosystem and in promoting the visibility and dissemination of scientific work at the national and international levels.

The presence of the Social Science Education Writing Laboratory reflects the program's dedication to continuous academic development, quality assurance, and the professional growth of its academic community.

## FOREWORD

Praise be to God Almighty for all His grace and gifts so that the Social Science Education Writing Laboratory can continue to develop as a collaborative and creative space for the academic community, especially in the Social Science Education study program. This laboratory is present not only as a supporting facility, but also as an important pillar in supporting the implementation of the Tridharma of Higher Education. Laboratories are a means of active and contextual learning, where students can develop scientific writing skills, think critically, and innovate through academic literacy activities and learning media production. This reinforces a learning experience that is not only theoretical, but also applicative. In the field of research, laboratories support lecturers and students in compiling, developing, and perfecting scientific works. The available facilities encourage the birth of quality scientific publications, both at the national and international levels, as well as improve the research culture within the study program. The laboratory is not spared as a center for the production of educational materials and information media that are useful for the dissemination of research, counseling, training, and community empowerment results. That way, the laboratory also serves as a bridge between the campus and the wider community. We hope that this Writing Laboratory can become a productive growth space for the entire community, strengthen scientific culture, and make a real contribution to the development of quality, innovative, and contextual social studies education. As laboratories play a role in realizing the vision of the study program as a center for the development of superior social studies education based on ethnopedagogy. Thank you to all parties who have supported and played an active role in the development of this laboratory.

Best Regards,  
Social Science Education Writing Laboratory PIC

### B. History

The Social Science Education Writing Laboratory was established as part of an effort to support the activities of the tridharma of higher education, especially in the fields of education, research, and community service. The establishment of this laboratory is based on the Regulation of the Minister of Finance of the Republic of Indonesia Number 120/PMK.06/2007 concerning the Administration of State Property, as well as the Government Regulation of the Republic of Indonesia Number 6 of 2006 concerning the Management of State/Regional Property. This laboratory was officially inaugurated by Prof. Dr. Ahmad, SE., M.Si., as the Rector of Lambung Mangkurat University on January 20<sup>th</sup>, 2023, as a form of the institution's commitment to providing a collaborative and creative space to support the learning process, develop academic literacy, and improve the quality of scientific work of students and lecturers within the Social Studies Education Study Program.

### C. Vision, Mission, and Objective of Study Program

#### Vision

Become a centre for the development of ethnopedagogy-based Social Science Education studies in Southeast Asia in 2039

### Mission

1. Organize Undergraduate level education uses an interdisciplinary, multidisciplinary and transdisciplinary approach based on ethnopedagogy as a development of social science education studies to improve skills in solving social problems at local, national and international levels.
2. Carrying out research related to the development of ethnopedagogy-based Social Science Education studies.
3. Conduct community service as a follow-up to the research and development results of Ethno pedagogy-based Social Science Education studies, which provide feedback on solving social problems at local, national, and international levels.
4. Organize collaboration with various domestic and foreign agencies to develop study programs in education and learning, research, and community service.

### Objective

1. Producing social studies educators who can apply ethnopedagogical-based social science education studies to develop social studies learning strategies.
2. Produce learning products that can introduce local potential to national and international levels.
3. Produce ethnopedagogical-based Social Sciences Education research studies that can be published at local, national and international levels.
4. A service program is a follow-up to the research results based on Social Science Education studies ethnopedagogy.
5. Increasing and expanding the collaboration network with various related agencies in the context of developing the tri dharma of higher education

### D. Organizational Structure

The organizational structure of the Social Science Education Writing Laboratory consists of a number of elements that support each other in carrying out the laboratory's functions optimally, including:

1. Laboratory PIC
2. Laboratory Secretary
3. Student Research Team

### E. Laboratory Services

The Social Studies Education Writing Laboratory provides various services to support academic literacy, scientific communication, and digital media capacity building for academics. Key services include:

1. Academic Writing Guidance  
Assistance in compiling scientific papers such as essays, journal articles, research reports, and theses with academic writing standards.
2. Language and Writing Style Clinic

Editing services and improvement of language structure, spelling, citation, and consistency of academic writing style.

3. Workshops and Training  
Periodic training on scientific writing techniques, journal publications, the use of supporting applications such as Mendeley, Grammarly, Turnitin, and so on.
4. Internal Peer Review Service  
Facilitate academic feedback on draft writings from peers to improve the quality of manuscripts prior to publication.
5. Scientific Publication Assistance  
Guidance in the preparation of articles and the process of submission to reputable national and international journals.
6. Digital Content Creation and Management  
Social media content production services for the Study Program, including manuscript writing, photo/video capture and editing, and visual design of academic promotion.
7. Creation and Publication of Activity News  
Writing and editing news on academic, student, and cooperation activities, which are ready to be published in the internal campus media or the official channel of the study program.
8. Space Facilities and Learning Resources  
Provision of workspaces, internet access, digital library resources, and supporting devices for writing and media production.
